Zabta Khan Shinwari received his Ph.D. from Kyoto University (Japan) followed by several postdoc. fellowships in Japan. He worked at the Pakistan Museum of Natural History, the National Agricultural Research Centre, WWF-Pakistan, and COMSTECH before his appointment as Vice Chancellor of Kohat University of Science & Technology. One of his major achievements is to extend higher education facilities to the neglected communities of Pakistan, especially to females. He also established the University of Science & Technology, Bannu. He is the founder of KUST Institute of Medical Sciences (KIMS).

Dr. Shinwari has also worked in the private sector as CEO of Qarshi Research International and as Vice Chancellor/PD of Qarshi University, Lahore. He was a tenured Professor of Biotechnology and Dean of the Faculty of Biological Sciences at Quaid-i-Azam University, Islamabad, and President of the National Council of Tibb. He also served as Secretary General of the Pakistan Academy of Sciences, Islamabad. He is a fellow of the World Academy of Sciences (TWAS), the Pakistan Academy of Sciences and Vice President of the Islamic World Academy of Sciences. While recognizing his efforts in Ethics in Science and Technology, UNESCO awarded him the Avicenna Gold Medal in 2015. He is the Vice Chairman of the World Commission of Ethics in Scientific Knowledge & Technology (COMEST) since 2016. He is the Focal Person of the Alliance of International Science Organizations (ANSO-HO, China), 2016–2022. He received the prestigious title of "Distinguished Scientist" from the Chinese Academy of Sciences in 2019/2020 and was listed among the top 2% in the world whose published research manuscripts have accelerated progress in their respective fields and influenced the productivity of other researchers' work, as established by Stanford University, USA, Nov. 2020, 2021 and 2022.

Muzammil Hussain is Assistant Professor of Communication and Media and a Faculty Associate at the U-M International Institute and the U-M Institute for Social Research, and a Faculty Affiliate at the U-M Ford School of Public Policy's Science, Technology, and Public Policy Program (STPP) and the Michigan Institute for Data Science (MIDAS). Dr. Hussain's interdisciplinary research is at the intersections of global communication, social analytics, and technology governance. At Michigan, Professor Hussain teaches courses on digital politics, research methods, and global innovation. He has authored numerous research articles, book chapters, and industry reports examining global ICT politics, innovation, and policy, including pieces in *The Journal of Democracy*, *The Journal of International Affairs*, the *Brookings Institutions' Issues in Technology Innovation*, the InterMedia Institute's *Development Research Series*, *International Studies Review*, the *International Journal of Middle East Affairs*, *The Communication Review*, *Policy and Internet*, and *Journalism: Theory, Practice, and Criticism*.

© TruEra

Shameek Kundu is Head of Financial Services and Chief Strategy Officer at TruEra. Shameek has spent most of his career driving responsible adoption of data analytics/AI in the financial services industry. He is a member of the Bank of England's AI Public-Private Forum and the OECD Global Partnership on AI, and was part of the Monetary Authority of Singapore's Steering Committee on Fairness, Ethics, Accountability and Transparency in AI. Most recently, Shameek was Group Chief Data Officer at Standard Chartered Bank, where he helped the bank explore and adopt AI in multiple areas (e.g., credit, financial crime compliance, customer analytics, surveillance).

Nisreen Ameen is a Senior Lecturer in Digital Marketing at Royal Holloway, University of London and the Co-Director of the Digital Organization and Society research centre. Nisreen is also currently serving as Vice President of the UK Academy of Information Systems (UKAIS). She is an Associate Editor for *Information Technology and People, Computers in Human Behavior* and the *International Journal of Consumer Studies*. Nisreen has also served as a Guest Editor for special issues of various top-ranked journals, such as *Information Systems Frontiers, Computers in Human Behavior, Psychology and Marketing, Industrial Marketing Management, Journal of Business Research, The Service Industries Journal and the International Journal of Consumer Studies*.

Nisreen's research focuses on two main themes: first, consumer interactions with new-age technologies and second, how organizations can use these technologies to provide better experiences, services and products. Within these main themes, her research interests include digital marketing and entrepreneurship, human–computer interaction, consumer behaviour, and organizational use of consumer data. She also focuses on cross-national and cross-cultural research in developing, emerging and developed markets. She has expertise in qualitative and quantitative methods of data analysis, in particular survey and experimental research. Her research has been published in high-ranking journals: the *British Journal of Management; the International Journal of Entrepreneurial Behavior and Research; Psychology and Marketing; Information Technology and People; Information Systems Frontiers; Internet Research; Computers in Human Behavior; Information Systems Management; Information Technology for Development; the British Journal of Educational Technology; and the International Journal of Gender and Entrepreneurship*.

Nisreen's work has been featured in world-leading media outlets such as *World Bank, The Conversation, New Stateman* and *Fast Company*.

Mujahidul Islam is an accomplished Edtech Specialist at Azim Premji University, where he actively explores the intersection of technology, media, and education. With a keen focus on digital ways of learning and ethical aspects, Mujahidul's work revolves around harnessing the power of technology to enhance educational experiences while ensuring responsible and ethical practices.

As an expert in his field, Mujahidul specializes in ideating, developing, and implementing appropriate, simple, and cost-effective digital solutions for education and development. He possesses a deep understanding of the intricate relationship between technology and pedagogy, and he continually strives to bridge the gap by incorporating digital tools and platforms that align with ethical considerations.

Sarayu Natarajan is the Founder of the Aapti Institute. Aapti works for equity and justice in technology for individuals and communities and specializes in research, action, and investment concerning inclusion, governance, and data through its two labs, the Digital Public Lab and the Data Economy Lab.

Sarayu has a PhD in Political Science from King's College London, an MPA from the School of International and Public Affairs at Columbia University, and a law and arts degree from the National Law School of India University, Bangalore. She has previously also worked at McKinsey and Company, Elevar Equity, and Gray Matters Capital.

© Manisha Pathak-Shelat

Manisha Pathak-Shelat is Professor of Communication & Digital Platforms and Strategies at MICA, Ahmedabad, India and chairs MICA's Centre for Development Management and Communication. She is the Editor of the Journal of Creative Communications published by Sage with MICA.

Manisha believes in scholarship that is socially engaged, accessible, and global in scope. Manisha has taught and worked as a media consultant and researcher in India, Thailand, and the US. She has a Ph.D. in Mass Communication with a minor in Gender and Women's Studies from the University of Wisconsin-Madison, USA and in Education from the Maharaja Sayajirao University of Baroda, India. Manisha's research interests are media and information literacy, young people's media cultures, inclusive design, communication for social change, new media, gender, and transcultural citizenship. The common thread that connects her work is exploration of how ordinary citizens engage with media and use communication to experience agency, explore identities, and participate in social change. She has shared her research globally as a speaker and through her books, journal papers, book chapters, and articles.

Awards and fellowships include the Soviet Land Nehru Award, the Shastri Indo-Canadian Faculty Research Award, the Salzburg Seminar Fellowship, the TATA Fellowship for the Study of Contemporary India, the MICA AGK Award for meritorious service, and the lifetime achievement award for contribution to media and communication education of the Global Media Education Council. Manisha has been part of several international collaborations and represents MICA at UNESCO's Media and Information Literacy and Intercultural Dialogue University Network and as a member of the Global Kids Online and Femlab research networks. She has led several capacity building programs for non-profits, various state governments, the corporate sector, and international organizations

© Halvfig

Anne Kaun is a Professor of Media and Communication Studies at Södertörn University, Sweden. She publishes widely on questions of social justice in relation to digital technologies, including algorithmic decision-making systems in the public sector across domains. She has been an expert advisor on questions of inequality and artificial intelligence to European think tanks, the Swedish government and several Swedish public agencies. In her work, she promotes comparative research across welfare domains and across national welfare regimes to better understand the role of technology for human flourishing. Kaun has published *Crisis and Critique: A History of Media Participation in Times of Crisis* (Zed Books, 2016), and her latest book, *Prison Media Incarceration and the Infrastructures of Work and Technology*, was published by MIT Press in May 2023.

© Wikimedia Foundation

Dariusz Jemielniak is a Full Professor and head of Management at the Networked and Digital Environments (MINDS) department, Kozminski University, and a faculty associate at the Berkman-Klein Center for Internet and Society, Harvard University. He is a member of the Polish Academy of Sciences and its current vice president. His recent books include Strategizing AI In Business and Education (2023, Cambridge University Press, with A. Przegalinska), Collaborative Society (2020, MIT Press, with A. Przegalinska), Thick Big Data (2020, Oxford University Press), and Common Knowlege? An Ethnography of Wikipedia (2014, Stanford University Press). His current research projects include disinformation and bot detection. He currently serves on the Wikimedia Foundation Board of Trustees.

© Data Ethics Council

Frej Klem Thomsen is a senior consultant to the secretariat of the Data Ethics Council and leads the secretariat's research-anchoring initiative and analytical work on various projects concerning the ethical dimensions of new technologies. Frej holds a Ph.D. in Philosophy with a focus on applied ethics from Roskilde University, Denmark. Prior to joining the secretariat of the Data Ethics Council, he worked as a researcher on applied and data ethics at the universities of Roskilde and Aarhus as well as at the Danish Institute for Human Rights.

© Lorena Jaume-Palasi

Lorena Jaume-Palasi researches, consults, and publishes on technology, ethics, and philosophy of law. Her current research focuses on public interest and practices of power at the intersection of technology and regulation. Lorena is a member of the international advisory board of the European Parliament's STOA panel. She has founded several NGOs and is a recipient of the Theodor Heuss Medal.

© European Commission

Paul Nemitz, a German national born in Bonn in 1962, is the Principal Advisor to the Directorate General for Justice and Consumers of the European Commission. He was appointed in April 2017, following a six-year appointment as Director for Fundamental Rights and Citizens' Rights in the same Directorate General. As Director, Nemitz led the reform of Data Protection legislation in the EU (GDPR), the negotiations for the EU–US Privacy Shield and the negotiations with major US internet companies on the EU Code of Conduct against incitement to violence and hate speech on the internet. Nemitz is a visiting Professor of Law at the College of Europe, Bruges, and a Honorary Fellow of the Vrije Universiteit Brussel (VUB).
Nemitz is the convener of the interdisciplinary Transatlantic Reflection Group on Democracy and the Rule of Law in the age of artificial intelligence and a regular speaker at the Athens AI Roundtable. He was a Member of the German Government Data Ethics Commission until it delivered its consensus report in 2019. He is a Member of the Commission for Media and Internet Policy of the Social Democratic Party of Germany (SPD), Berlin, a Member of the Board of the Verein Gegen Vergessen – Für Demokratie e. V., Berlin and a Trustee of the Leo Baeck Institute, New York. He chairs the Board of Trustees of the Arthur Langerman Foundation at the Technical University of Berlin (TU Berlin). He is a Member of the Global Council on Extended Intelligence of the IEEE and MIT in Boston and a Member of the Boston Global Forum of the Michael Dukakis Institute. He also serves on the Advisory Board of the Trustless Computer Association, Zurich, and the Association for Accountability and Internet Democracy, Paris.

© James Clemas

Emiliano Treré is a Reader in Data Agency and Media Ecologies at Cardiff University's School of Journalism, Media, and Culture. He is a widely cited author in the fields of digital activism, critical data/algorithm studies, and digital disconnection with a focus on Latin America and the Global South. He co-founded the 'Big Data from the South' Initiative and co-directs the Data Justice Lab. His monograph Hybrid Media Activism (Routledge, 2019) won the Outstanding Book Award of the ICA Interest Group 'Activism, Communication and Social Justice'. Data Justice (Sage, 2022), his latest co-authored book, was the runner-up for the Sage Social Justice Book Awards.
