

The Austrian Centre for Digital Humanities (ACDH-OeAW), a research department of the Austrian Academy of Sciences (Austria's leading non-university research facility), is seeking a

## **Data Analyst (f/m)** **(full time) with experience in NLP/text technology**

You will join an internationally networked team, pursuing research on the border between up-to-date ICT and humanities studies. Your tasks will primarily consist in automatic processing (transformation, analysis, enrichment) of textual data, metadata and semantic resources to be used in Semantic Web applications.

Your work is part of the institute's research activities and as such has to be documented through academic publications and presentations.

### **We are looking for experts with**

- a thorough knowledge of Natural Language Processing technologies, with a focus application on Machine Learning methods for text analysis,
- experience in Semantic Web technologies & resources (RDF, OWL, SPARQL, LOD)
- experience in working in complex systems with a variety of technologies,
- a high degree of creativity and a willingness to engage in new emerging technologies,
- excellent communication skills.

The employment will start in May 2018 and initially run until 30 April 2019. The contract can be extended.

In accordance with the collective agreement for employees of the Austrian Academy of Sciences, the initial monthly gross salary is € 2.715,00 (paid out 14 times a year, overpay is possible).

Please send your application (including CV, statement of motivation and references of previous projects) by email to [acdih@oeaw.ac.at](mailto:acdih@oeaw.ac.at). The application deadline is Friday, 9 March 2018.
