

Corrigenda of Dharmakīrti's Hetubindu. Critically edited 2016 (STTAR 19)

(November 2016)

Only when I recently began to try my hand at an English translation of the new Sanskrit text of the *Hetubindu* published early this year, with considerable shock and much shame, I discovered that the page and line references found in the “Analytic Survey” on pp. 99-110 are all wrong. These references were compiled on the basis of a pre-publication version of the text and I simply forgot to change and adapt them to the version that was finally published. I can only express my profound apologies to the eventual users of this edition and ask them to substitute the published references by the ones offered below.

I also use this occasion to repair a few other mistakes that I have already found:

p.viii, note 2: HB 10,13-25,6 > HB 9,5-21,6

p.2, line 11: sādhyadharminīpratyakṣato > sādhyadharminī pratyakṣato

p.2. note 7-8: veditavyaḥ n.e. T > veditavyaḥ HBṬ, n.e. T

p.3, line 15: °adhigateḥ, ^{bcd}vastvadhi° > °adhigateḥ^b, ^{cd}vastvadhi°

p.99, line 7: (the subject) > (the subject):

p.99, line 8: delete “and purpose of this work”

p.102, line 9 from bottom: uselessness > uselessness
