## Title:

## EVOLUTIONARY BIOLOGY OF CAENORHABDITIS AND OTHER NEMATODES 2024

2024The 10th edition of the "Evolutionary Biology of Caenorhabditis and Other Nematodes" meeting will take place at the Vienna BioCenter, Austria, one of the top biology research centers in Europe, from June 17-20, 2024. This conference serves as a unique platform that brings together a diverse and global community of researchers dedicated to studying the evolution and natural diversity of nematodes at various levels, spanning from molecular mechanisms to the complex dynamics within ecosystems. By uniting experts from different disciplines, including genomics, quantitative and population genetics, parasitology, microbiology, neuroscience, and ecology, we aim to foster an environment that encourages the exchange of ideas and the exploration of cutting-edge research. Attendants of this meeting typically include researchers who are interested in the latest technological developments in the fields of genomics (de novo genome assemblies, structural variants, single-cell sequencing), microbiology (metabolomics, bacterial and fungal isolation and culture, metagenomics) and imaging (microscopy, automated tracking, high-throughput phenotyping).

### VENUE

IMP Lecture Hall  
Vienna-Biocenter (VBC)  
Campus-Vienna-Biocenter 1  
1030 Wien

### DATE

17 - 20 June 2024

### NO OF EXPECTED PARTICIPANTS

150 attendees from all over the world

### TOPICS

- Genomics
- Quantitative genetics and GWAS
- Microbiology and Virology
- Host-pathogen interactions
- Complex traits
- Predator-prey interactions
- Interspecies communication
- Evolutionary biology

### SCIENTIFIC ORGANIZERS

- Erik Andersen, Johns Hopkins University
- Alejandro Burga, IMBA
- Amanda Gibson, University of Virginia
- Yen-Ping Hsueh, Institute of Molecular Biology, Academia Sinica
- Gavin Woodruff, University of Oklahoma

### WEBSITE LINK

## SPONSORSHIP PACKAGES

	Premium € 2.000	Silver € 1.000	Bronze € 500
Exhibition space	2m <sup>2</sup>		
Complimentary conference registrations	2	1	
Option to provide lanyards, notepads, pens for the registration	✓		
Colour advert in conference programme/abstract booklet	Full page	Full Page	Half Page
Colour Logo in conference programme/abstract booklet recognition as premium/silver/bronze sponsor	✓	✓	✓
Logo and URL on conference website	✓	✓	✓

## STUDENT SPONSORING

### TRAVEL GRANT

Enable selected early career researchers to attend this event by providing them with a travel grants to cover their expenses.

EUR 300\*

Sponsor's name and logo on event website, link to sponsor's website.  
Company logo recognition included on "Thank You" sponsor page of the abstract booklet.  
Company logo in letter mailed to each stipend recipient.

### STUDENT AWARD [2x available]

Honoring outstanding achievements by young researchers by awarding them a prize for best poster or best talk.

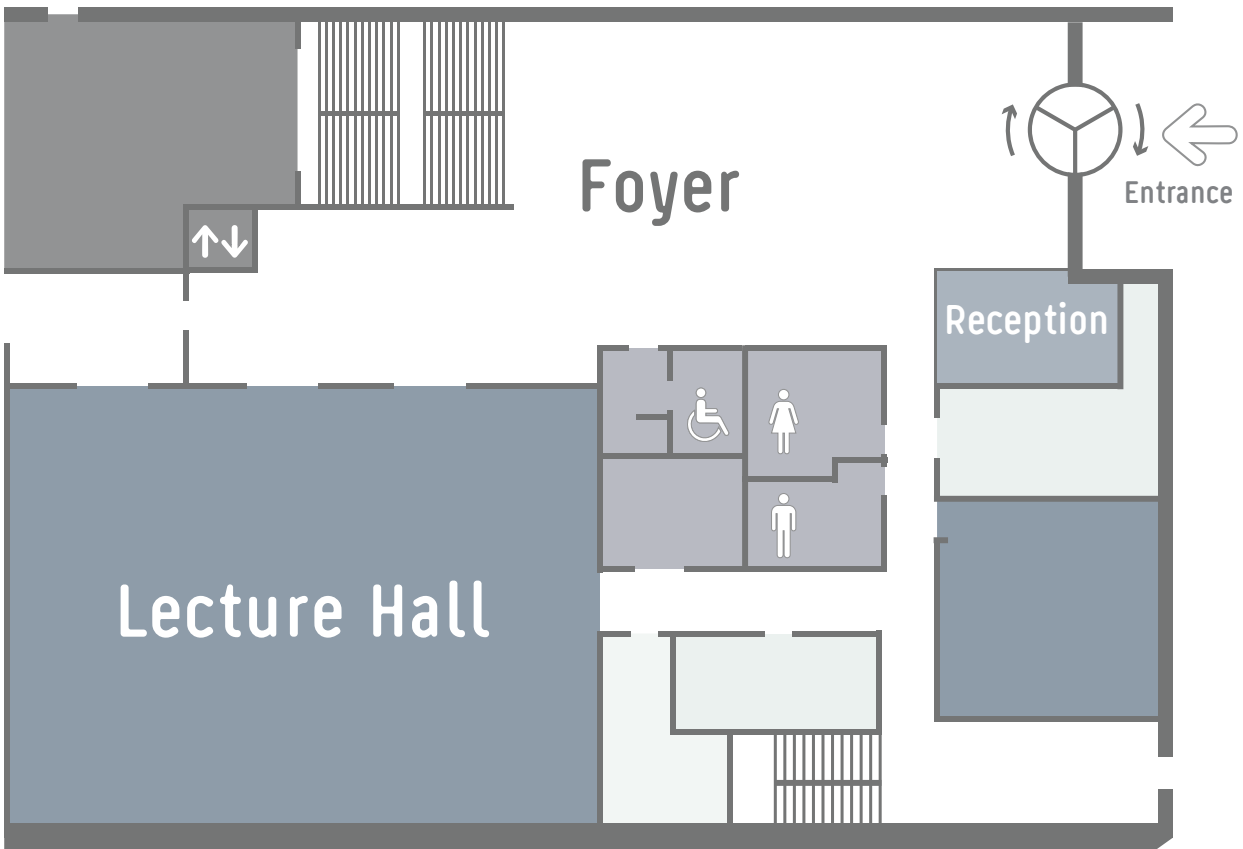

EUR 500\*

Sponsor's name and logo on event website, link to sponsor's website.  
Company logo recognition included on "Thank You" sponsor page of the abstract booklet.  
Company logo on student poster / talk awards.  
Twitter post including mentioning of company
