GRAVIZ PRESENTATION

Yasir Yılmaz | PI, GraViz

Nilab Saeedi | GraViz editor (Ottoman Turkish and Persian)

Michael Vogelsberger | GraViz editor (German, Latin, and Italian)

GraViz: The Ottoman Grand Vizierate (1560s–1760s) is a digital editing project funded by the Austrian Science Fund (FWF, P-36216) that researches the correspondence between the Viennese court and six prominent early modern Ottoman grand viziers. We transcribe and translate into English the letters, including texts in Ottoman Turkish, German, Latin, and Italian. All GraViz editions are published on qhod.net, the umbrella project of the IHB dedicated to researching the history of early modern and modern Habsburg-Ottoman diplomacy.

In the presentation, the GraViz team will introduce the finished first phase of the project that involves the correspondence between Vienna and Constantinople during the time of Grand Vizier Sokollu Mehmed Pasha (in office, 1565–1579).

GraViz is led by Yasir Yılmaz, with an editing team comprising Nilab Saeedi and Micheal Vogelsberger. GraViz is conceived as the first phase of a planned larger project that will analyze the office of the chief minister across Eurasia.
