

Affordable Housing and Living in Vienna?

Tenants are under enormous pressure from the rising cost of housing and everyday living (including rent, utilities and energy). These economic developments have a widespread impact on tenants' lives.

Why should you participate?

At a time when affordable housing is becoming a key social challenge, we invite you to share your experiences (**ANONYMOUS**) and give us a glimpse into your life. We provide a **platform** for your voice and experiences to be heard, and you act as a **role model** for other people affected. By participating in the project, you also have an **implicit say in policy-making**.

We offer a **50 Euro shopping voucher**.

We are looking for **people**, who:

- ...live in the **private rental sector in Vienna** (NO council/social housing or Genossenschaft/limited profit housing),

- ... can **no longer** afford the **rent** or can **only afford it with difficulty**

We will have a **longer individual conversation** (approx. 2-3 hours) about your **life** and your **experiences with renting and living in Vienna**.
