Content: The main theme of this year's event is advanced materials and circular economy. We seek to further promote the contact between Austrian and Thai research institutions which was established within the framework of the Asian Nanoforum (ANF) and followed up by a visit of the ITA at KMUTT facilities in Bangkok in August 2017. The conference offers the opportunity to exchange the results of the scientific research on the subject of sustainable development of new technologies. We wish to discuss issues regarding innovation, safety and sustainability to identify common fields of interest for further joint activities, both scientific and educational in nature.
