

Cyberscience 2.0
Research in the Age of
Digital Social Networks

Michael Nentwich and René König

2012
Campus, Frankfurt am Main/New York
University of Chicago Press, Chicago

Contents

Preface.....	V
1 Introduction.....	1
1.1 Cyberscience 1.0 Revisited.....	2
1.2 Web 2.0 and Cyberscience	5
1.2.1 The Internet is becoming a social space	5
1.2.2 Social media, digital social networks and digital social culture.....	7
1.2.3 On the path to cyberscience 2.0?.....	9
1.3 Conceptual Framework and Methods	11
1.3.1 Modeling scholarly activities and ICT impact on academia	11
1.3.2 Methods applied	15
2 Case Studies	17
2.1 Social Network Sites.....	19
2.1.1 Main functions.....	26
2.1.2 Potential for science and research	33
2.1.3 Usage practices and impact	35
2.1.4 Interim conclusions	48
2.2 Microblogging	50
2.2.1 Main functions.....	51
2.2.2 Potentials for academia	54
2.2.3 Usage practices and impact	57
2.2.4 Interim conclusions	70
2.3 Collaborative Knowledge Production—The Case of Wikimedia	72
2.3.1 Main functions and core principles	74
2.3.2 Potentials for academia	82
2.3.3 Usage practices and impact	85
2.3.4 Interim conclusions	97
2.4 Virtual Worlds—The Case of Second Life	100
2.4.1 Main functions.....	101
2.4.2 Potentials for science and research.....	103
2.4.3 Usage practices and impact	104
2.4.4 Interim conclusions	112

2.5 Search Engines—The Case of Google	113
2.6.1 Main functions.....	116
2.5.2 Potential for academia.....	125
2.5.3 User practices and impact	127
2.5.4 Interim conclusions	139
3 Cross-Cutting Analysis	143
3.1 Interactivity as a Crucial Category	143
3.1.1 Utopian and dystopian perspectives	143
3.1.2 Insiders and outsiders: methodological issues.....	147
3.1.3 Overcoming the barriers between utopians and dystopians	149
3.2 New Windows in the Ivory Tower.....	151
3.2.1 Bringing together the academic and public spheres	152
3.2.2 Blurring media formats	156
3.2.3 Blurring roles	158
3.2.4 Bridging the boundaries?.....	161
3.3 Academic Quality and Digital Social Networks	163
3.3.1 Recent developments in academic quality control.....	163
3.3.2 Ex ante quality control for or through digital social networks? ...	165
3.3.3 Ex post quality control in digital social networks.....	168
3.3.4 Crediting and incentives.....	171
3.4 Information Overload or Information Paradise?.....	172
3.4.1 The evolution and diversification of communication channels in academia	173
3.4.2 Quantitative impacts of multi-channel communication.....	176
3.4.3 Qualitative impacts?.....	178
3.5 Between Transparency and Privacy.....	181
3.5.1 Privacy versus transparency in the Web 2.0.....	182
3.5.2 Privacy impact assessment of academic use of social media.....	183
3.5.3 Paths towards transparent and privacy-friendly academic Web 2.0?	185
3.6 Towards Democratization of Science?	188
3.6.1 What does democratization mean?.....	188
3.6.2 Internal democratization?.....	190
3.6.3 External democratization?.....	194
3.6.4 Obstacles for assessing democratization processes	197
4 Overall Conclusions and Outlook	199
4.1 Maturing Cyberscience	199
4.2 The Cyberscience 2.0 Prospects.....	201
4.3 An Ambivalent Overall Assessment.....	205
Abbreviations	207
Bibliography.....	209
Index	233

List of Tables

Table 1: Overview of SNS	22
Table 2: Typical uses of microblogging during conferences	63
Table 3: Breadth and impact of the selected Wikimedia projects	77

List of Figures

Figure 1: Types of scholarly activities and framework conditions.....	13
Figure 2: Modeling Web 2.0-induced changes of the scholarly communication system.....	15
Figure 3: Detail of a profile in ResearchGate	21
Figure 4: Examples of Foundations of SNS 1997–2010.....	24
Figure 5: Network visualization by “Social Graph” in Facebook.....	29
Figure 6: Co-author network in Vivo.....	32
Figure 7: Scholarly activities and social network sites	34
Figure 8: Scholarly activities and microblogging.....	55
Figure 9: Screenshot of a public Twitter list of twittering scientists (April 28, 2011).....	58
Figure 10: Revision history of a Wikipedia article	75
Figure 11: Article growth of the six largest Wikipedias ⁶¹	78
Figure 12: Interactive questionnaire in Wikiversity.....	82
Figure 13: Scholarly activities and Wikimedia projects	83
Figure 14: Education of Wikibooks authors	90
Figure 15: Growth of academic interest in Wikipedia	99
Figure 16: Scholarly activities in Second Life	103
Figure 17: Representation of Princeton University campus in Second Life..	105
Figure 18: “Tsunami” on NOAA’s island	107
Figure 19: NASA conference with “mixed reality” elements	109
Figure 20: Google Scholar search results	121
Figure 21: Snippet view in Google Books (detail)	124
Figure 22: Scholarly activities and Google, Google Scholar, and Google Books.....	126
Figure 23: Wrongly scanned book in Google Books	134
