

World Archaeology Seminar

Investigating chaînes opératoires in Aegean Prehistory

Integrating Macroscopic, Microscopic and Experimental Approaches

Georgia Kordatzaki | Ionian University Corfu

Focusing on human behaviour and technological choices, this lecture explores different practices of prehistoric pottery production. With an emphasis on pottery technology in the Aegean, it brings together case studies from different chronological periods and geographical settings across Greece.

**28 October 2026,
17:30 CEST**

Otto Wagner-Postsparkasse,
Georg-Coch-Platz 2, 1010 Vienna,
Seminar Room 8+9, 5th Floor
