

①

Kistler: Implement the
data steward (2 a PostDoc)
→ Metadata logging

Daggeyeli: Focus on non-Apollo content

Schwarz: High performance Computing
NUSICA; Horvath: some
Cluster members use it. Cluster
Survey results will be circulated
Reiser-Kapeller: ÖAW HPC resources
are not yet open for ACIDH;
→ negotiations needed

Q: Language desiderates?

②

Hornig: Austrian DH is internationally strong, but German-centric.

→ Bringing in new Languages would benefit the whole environment

→ ACDH is unique in competence & human resources

J. Hennings: Why is Austria so strong?

- Does the ACDH consider the COE a strategic partner?

① If somebody in the Leadership makes DH a priority, things move fast in smaller contexts

② More reciprocity by now.

(3)

BK: ACDH stems from the ÖAW's focus on long time corpora.

What the COE changed: a critical mass of customers

H. Fellner: Chair for Digital Humanities in Linguistics & Philology.
I → Masters programme, in co-operation with ACDH

A. Horváth Intention was to create an infrastructure that can facilitate the individual projects, instead of implementing the projects.
→ recommended also for phase 2!
