

The Austrian Centre for Digital Humanities and Cultural Heritage ([ACDH-CH](#)), a research department of the Austrian Academy of Sciences ([OeAW](#)), Austria's leading non-university research institution, is seeking an

## IT CONSULTANT – DIGITAL HUMANITIES RESEARCH (F\*M)

(full-time, 40h per week)

You will join an internationally networked team, pursuing research at the intersection between information and communication technology and humanities studies. Your position at the Centre will be as a consultant for project cooperations in the field of digital humanities, beginning from the first idea and proposal phase and including the implementation of information technology during the project runtime. You will act as an intermediary between stakeholders and facilitate the information exchange and communication processes between researchers in the humanities on one side and technological developers on the other. The projects you will support are situated in a variety of fields in the realm of the humanities, especially the paradigms of text and linguistic research, musicology, historiography, etc.

### Your tasks:

- Contact person for internal and external inquiries concerning cooperations in the field of digital humanities
- Supporting our project partners with the realization of project cooperations
- Requirement analysis for project cooperations
- Consultation concerning data structuring and data modeling as well as the implementation of software and services for projects in the humanities
- Cooperation writing project proposals with a focus on digital aspects
- Documentation and optimization of project cooperation and management processes

### Your profile:

- A degree in information technology or a subject in the field of humanities
- Experience with projects at the intersection of the humanities and information technology (digital humanities, knowledge management, etc.)
- Excellent skills in communication and organisation (in English and German)

### Optional assets:

- Practical experience with the execution of projects in the digital humanities
- Experience with program management and product management
- Experience processing research data in the humanities
- Expertise in web development, front end design, development tools, etc.

### We offer:

- an international, inclusive work environment in a diverse team in the heart of Vienna
- work with unique cultural heritage data in cutting edge collaborative research settings
- a strong focus on innovation and new technologies in a multidisciplinary field
- flexible and family-friendly working hours
- self-determined work
- possibilities to contribute your ideas and initiatives
- an environment to grow your interests and develop your skills
- an open communication culture / open-door policy

The annual gross salary is € 41.490,96 in accordance with the collective agreement for employees of the Austrian Academy of Sciences. Based on your experience and qualification the salary can be negotiated. The employment will start at the earliest in December 2021 and run initially for 12 months, with the option to extend.

Please send your applications including CV, statement of motivation and references of previous projects via e-mail to [acdh-ch-jobs@oeaw.ac.at](mailto:acdh-ch-jobs@oeaw.ac.at), (mentioning Job ID: ACDH-CH120TEC121) **no later than October 31, 2021**.

*The Austrian Academy of Sciences (OeAW) pursues a non-discriminatory employment policy and values equal opportunities, as well as diversity. The OeAW lays special emphasis on increasing the number of women in senior and in academic positions. Given equal qualifications, preference will be given to female applicants.*
