

Job ID: VID192PD124

The Vienna Institute of Demography (VID) of the Austrian Academy of Sciences (OeAW), Austria's leading non-university research and science institution, is offering a

## POSTDOC POSITION (F/M/X)

(full-time / 40h per week)

to join the Research Group on Demography of Austria, headed by Isabella Buber-Ennsner. The position offers a contract of up to 6 years. The initial contract period will be determined based on the candidate's experience and qualifications.

The research group investigates the demography of the Austrian population in an international comparative perspective and participates as the Austrian partner in international networks. Our research is based on different data sources including survey data and self-collected data and focuses currently on fertility and (forced) migration in Austria. We aim to expand our research to include aspects of ageing, socio-economic disparities and health across the life course by using emerging social science research infrastructures as well as novel administrative data (register data).

### Your tasks:

The successful candidate will work largely independently on (sub)projects within the framework of the research group, present her/his work and results internationally at conferences, and publish in high-ranking refereed journals. She/he will take part in the application process and the acquisition of third-party funding and support the research group leader in coordinating the research in the team as well as in disseminating generated insights to the general public.

### Your profile:

- PhD in Demography, Social Sciences, Statistics, Economics, or other relevant fields
- Solid knowledge of demographic methods
- Excellent statistical software skills, such as Stata or R
- Excellent oral and written communication skills in English
- Good oral and written communication skills in German
- Capability to work independently and to collaborate with a broader research team
- Publication and research track record showing the ability to conduct original research on demographic processes and to raise third-party funding

### We offer:

- Interesting field of activity in a dynamic environment with the possibility to work independently
- Flexible time arrangement
- Central downtown location
- Opportunity to gain and strengthen a profile as an independent scientist

Start of employment is as early as possible. The annual gross salary starts with a minimum of € 66.501,40, according to the collective agreement of the Austrian Academy of Sciences.

Please send your application including a CV, a letter of motivation, a list of publications or a link to an online list of publications, degree certificates via e-mail to [petra.schmutz@oeaw.ac.at](mailto:petra.schmutz@oeaw.ac.at) (mentioning Job ID: VID192PD124) **until January 15, 2025**. The position will remain open until filled. Job interviews will take place either physically or via video call.

*The Austrian Academy of Sciences (OeAW) pursues a non-discriminatory employment policy and values equal opportunities, as well as diversity. Individuals from underrepresented groups are particularly encouraged to apply.*
